

ANNOUNCEMENT

AMCCS Pty Ltd is pleased to announce the acquisition of the air filter business interests of AES Environmental (WA) Pty Ltd which will become effective from 1st July 2023.

This strategic investment expands the activities and interests of the groups sales and manufacturing operations in Australia and follows the recent investment in a new independently accredited ISO 16890 air filter test rig.

There will be no change to the employees in WA as we welcome them into our expanding business operations. Customers and Suppliers will receive by separate notice changes to payments and banking arrangements.

AMCCS manufactures a full range of air filter products in Australia and licences iconic Australian incorporated filter brands Clyde-Apac (1923), Vokes (1939) and Email Air Handling (1958). AMCCS retains filter test capability with multiple air filter test rigs retained within its IEC 17025 laboratory in NSW.
